

# Spagyric Medicine Seminars

Dear practitioner or follower of natural medicine, Phylak Laboratories of Germany and Switzerland together with Archturus Foundation are pleased to invite you to the two following seminars in 2018:

Spagyric Essences are well known and widely used in Switzerland and Germany but relatively unknown in the UK. Phylak-Spagyric natural essences link homeopathy and herbal medicine, providing a natural answer to physical and emotional ailments, supporting body, soul and spirit at the same time. These seminars will help to further your knowledge of this natural medicine and provide additional treatments for your clients.

Spagyric Medicine seminar – Saturday 9<sup>th</sup> June, 2018 (9.30-16.00 hrs.) & Spagyric Medicine seminar – Sunday November 25 2018 (9.45-16.00 hrs.) Venue: Regent's College Conference Centre, Regents Park, London NW1 4NS Cost: £100. To book and pay for seminar, see contact details below & booking form.

Included in the seminar fee are two books: An inspired and detailed reference book of 'Phylak Spagyric Essences' suitable for experienced practitioners and for those new to this subject and an invaluable file of 'Suggested Combinations'. Attendees will receive a CPD certificate. Free online support from our consultant in Switzerland is also available to practitioners.

Both seminars will explore and discuss the two new essences, *Imperatoria ostruthium* & *Kalmia latifolia*. We'll discuss the contribution of the two new essences in relation to the following themes:

The support of metabolic processes, preservation of our mitochondria, assisting dietary improvement, and looking at a new approach to pain and inflammation.

Specific energetic themes: communication, sharing, openness, sowing new ideas, new paradigms, new ways of working... and loving each other.

Attendees who are unable to come to the June seminar are very welcome to attend in November as the first seminar will introduce the themes listed above and the second seminar will further develop these themes, incorporating new combinations and lines of thought that always develop as the year progresses and new case studies come to our attention.

Payment prior to the seminar would be much appreciated to ensure a prompt start to the day and to ascertain number of book sets required.

Payments (cheques, credit/debit card or BACS) can be made to: The Archturus Foundation, Easterton, Glenfarg, Perthshire, PH2 9QJ. Triodos Bank, Sort code: 16-58-10 A/c no: 20397720 Office open Mon, Wed & Fri 10-16.00 hrs 01577 830 550 email: [archturusfoundation@btinternet.com](mailto:archturusfoundation@btinternet.com)

Lecturers June: Elisabeth Bindschaedler, pharmacist and health practitioner

November: Dr James Naidu, research scientist and health practitioner, CEO of Phylak Laboratories specialising in medicinal plants and their impact on modern day diseases.
